

Our first Blake song puts us in the key of G.

Things to look out for

1. The bass walk between the D chord and G chord throughout the song.
2. The thumb rolls - the chord changes are difficult so take your time.
3. The walkdown between the G chord and E7 chord near the end of song.

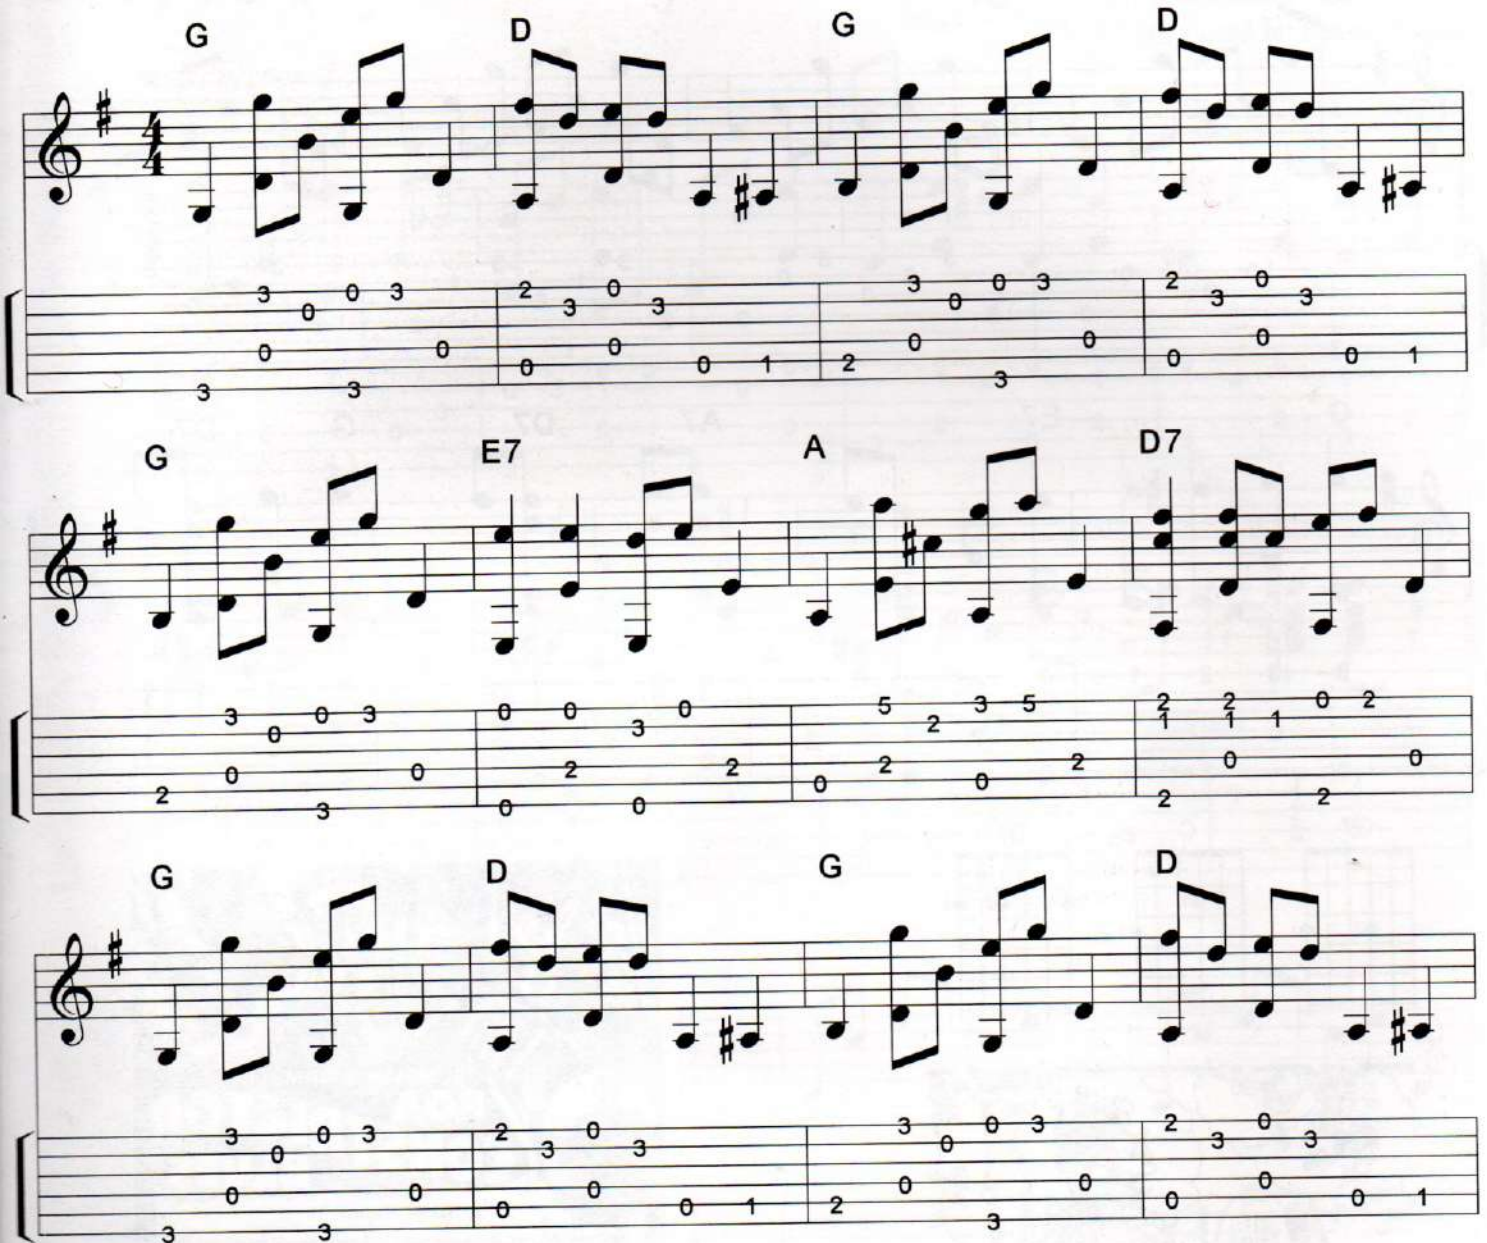

Use your thumb if you want on the bass string.

Remember, using an alternating bass means a lighter feel to the music.
